

# Greetings from Camp!

Dear friends of camp,

Today I have tears of joy, because I picked up my son Oscar from camp and Campfire Circle sent me home a pre-pandemic Oscar. I knew he needed camp and to be with "his people," but I guess I didn't really realize how much. He is the happiest I have seen him in years.

The pandemic has been mentally exhausting for everyone, especially for our children who have lived through so very much already in their cancer and recovery journey.

The Campfire Circle team and community has gone above and beyond and helped heal my son's heart and soul. Thank you from the bottom of my heart.

—Heather, Camper Parent
